

# SY Ruby

## The yacht

A new concept in alloy cats: light, fast, luxurious for up to 8 guests

## Cruising Area

Thailand, Malaysia, Andaman Islands, Burma/ Myanmar

## Highlights

Next to being comfortable, luxurious and fast sailing SY Ruby is able to accommodate her guests with some special features. She is specifically built for the tropical temperatures of Thailand. Ruby's giant front windows all open up to let the fresh air into the saloon and through to the cockpit, all cabins have 2 electric fans next to opening hatches, 2 separate high-capacity aircon units are able to keep the whole interior cool even in the hottest period of the year. SY Ruby is fitted out as a dive live-aboard yacht with a silent built-in dive compressor and all the amenities needed for a hassle-free diving holiday.

## Accommodation

Ruby is a beautifully finished yacht and is spacious inside and outside. From the saloon you walk down to the spacious double cabins located in the hulls on both sides.

Ruby features three en-suite double cabins with private bathroom/shower and one double cabin with access to a shared bathroom/shower. There is ample room for your private belongings. Everything breezes an atmosphere of luxury and an eye for detail.

Of course there is maximum ventilation: next to the available airconditioning, each cabin has two electric fans to keep you comfortable throughout the night as well as an opening hatch to let in the exotic smells and sounds of the tropics.

The large saloon seats 10 persons easily around its 2 beautifully varnished saloon tables, with the well equipped u-shaped galley directly opposite.

If need be the saloon can be cooled by a high capacity airconditioning, potentially making lunch and dinner a 'cool' event next to being a culinary adventure into the best the Thai cuisine has to offer.

### Above decks

Stepping outside from the saloon brings you into the cockpit. You'll find Sunbrella seat cushions throughout and a large teak cockpit table for stylish lounging (would you choose to sleep outside: the cockpit table converts to a queen size bed!!). A large fixed awning covers the whole cockpit keeping you out of the sun and - nice touch - there is direct access to a large fridge in the cockpit providing the cold drinks you long for. Direct access to a washroom is available from the cockpit.

The very spacious decks offer plenty of room for everyone. A big flexible awning provides the necessary shade while the coach roof can accommodate the sun worshippers. Large comfortable Ferrari nettings let you relax in the softest way possible.

Aft stairs lead to a sea level swim platform with a retractable swim ladder for easy access.

### Summary

|                      |   |
|----------------------|---|
| <b>Length</b>        | 51 ft (15,4 m)  |
